SUBJECT: Herb Bell Illegal Site - Chronology update
Bradford County

TO: File

FROM: Alan J. Snelson
Solid Waste Specialist

On 4/15/77 I investigated the illegal Herb Bell Landfill. Once again the site was in gross violation. Litter was strewn about the entire site as well as the Township road leading to the site. Large quantities of leachate were running down the drainage ditches of the Township road.

On 3/24/77 Mr. Bell assured me that final cover would be applied and the site would begin to operate according to the rules and regulations. That final cover material has not been applied nor has any daily cover for quite some time. In short, the site is run as an open dump.

On 5/16/77 I investigated the illegal Bell Landfill. At the time of inspection the site was in gross violation again. The site lacked final and daily cover, and had an excessive working face. Litter has not been controlled or collected.
